Wrenbridge

A highly sustainable business destination in the heart of Greenwich

Delivering 35,640 sq ft of high-quality new warehouse and logistics space, The Yard Greenwich is a modern, self-contained facility designed for today's occupiers. The scheme offers flexible accommodation with a 10m clear internal height, quality offices and future-ready power, while targeting BREEAM Excellent and EPC A+ for strong sustainability and long-term efficiency.

Nathan Way

White Hart Ave

Positioned for people, powered by growth

Greenwich offers access to a diverse and growing workforce, with the local population set to reach 1.95 million by 2025. Strong transport links and long-term growth make The Yard well placed for occupiers seeking both talent and connectivity.

Designed for efficiency and flexibility

The Yard combines quality construction with practical features for modern industrial and logistics use. With dedicated yard access, sustainable credentials and forward-thinking design, every detail supports safety, efficiency and performance.

Four level access doors

10m clear internal height

26 car parking spaces

12% office space

550 kVA power

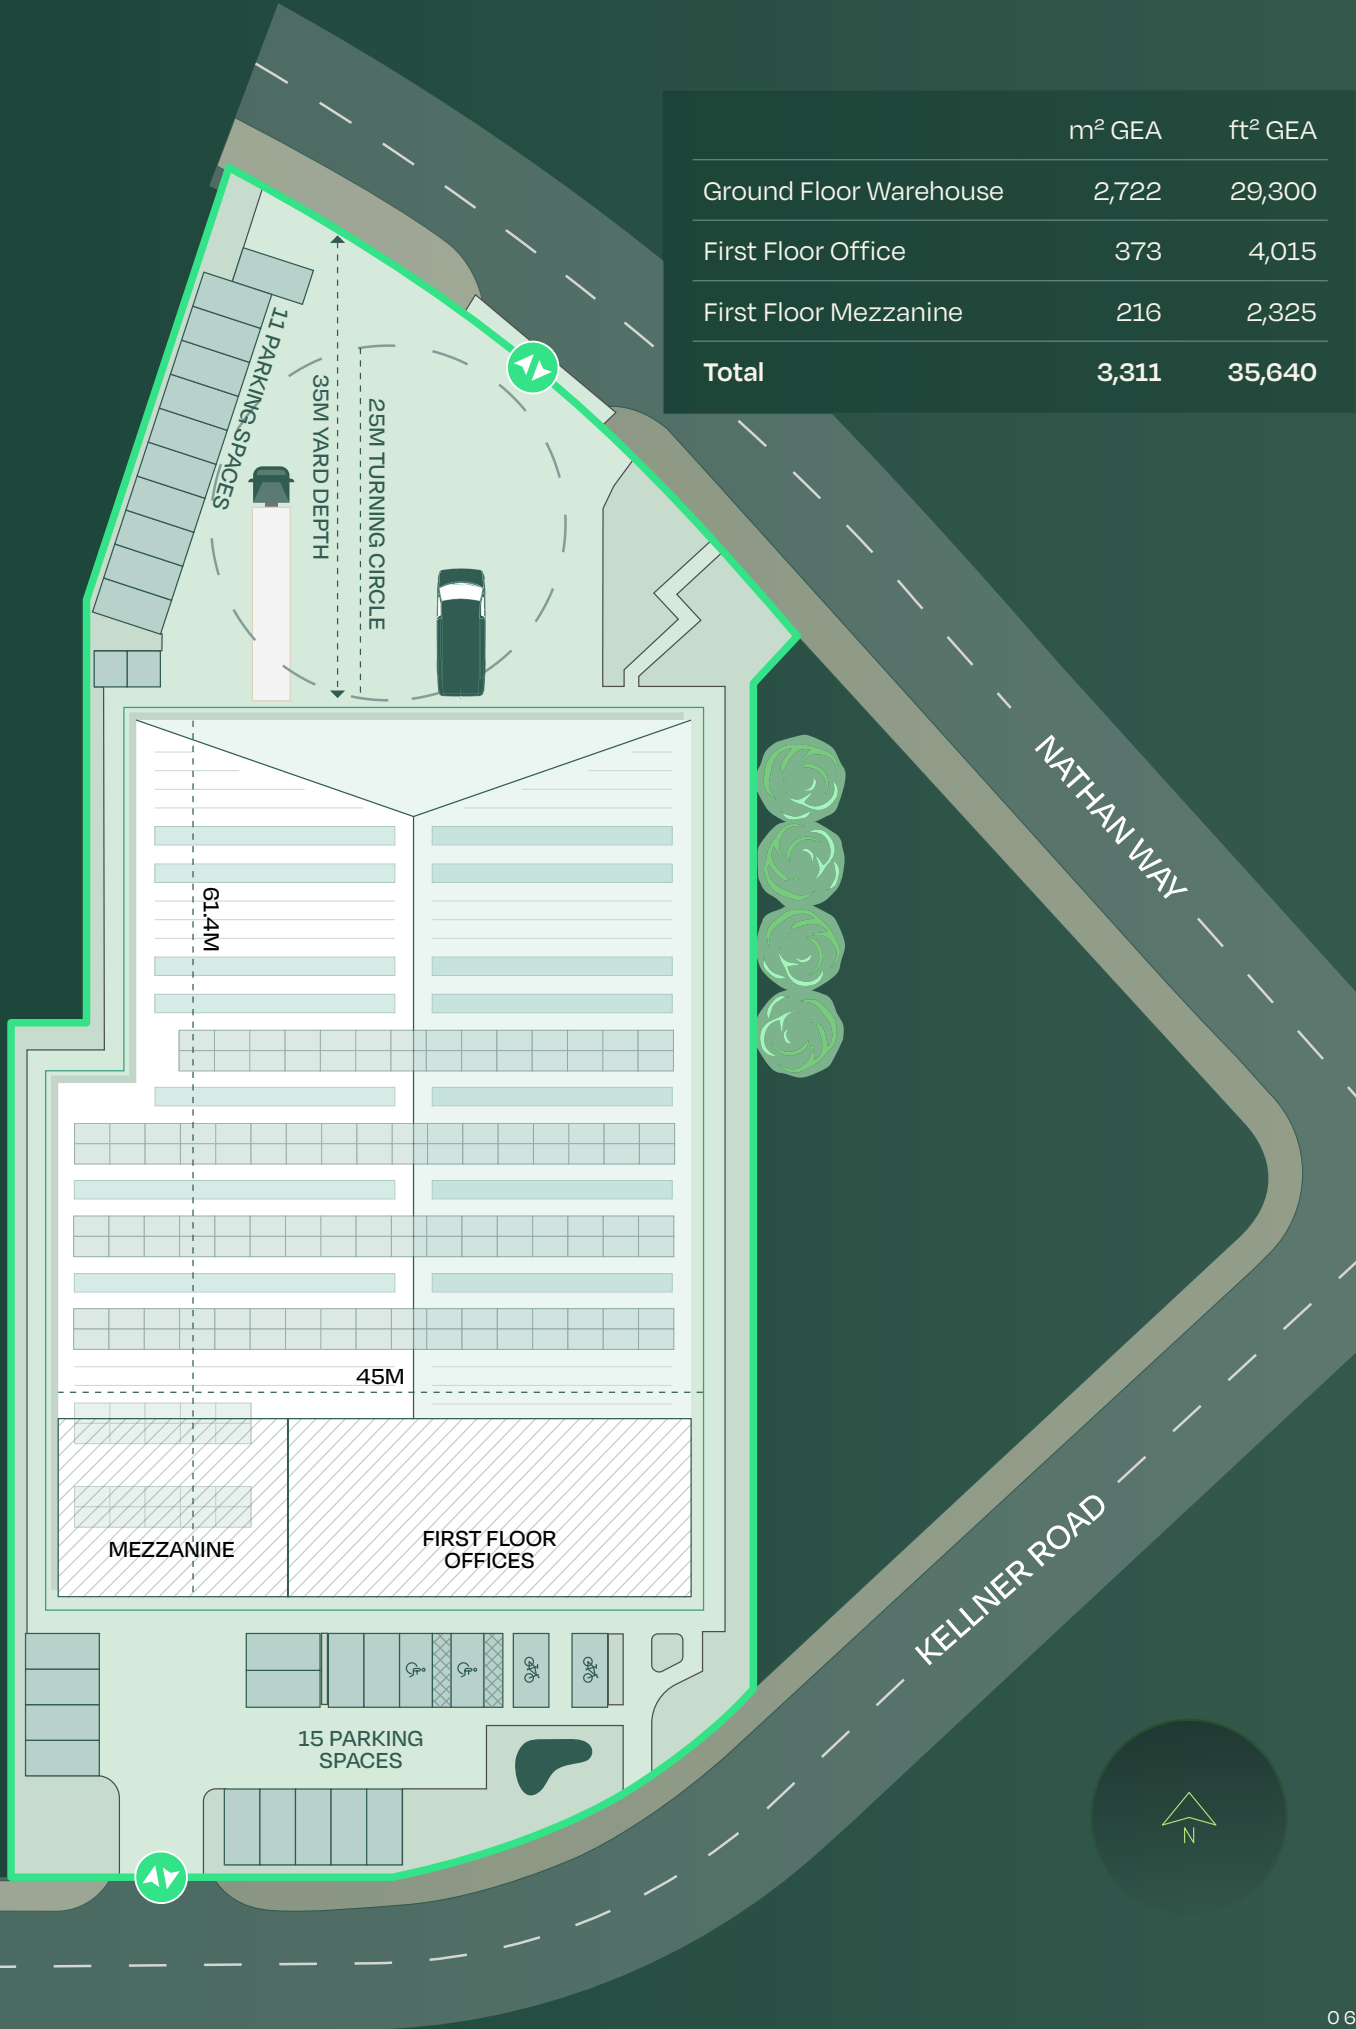

Separate car / HGV access

35m yard depth

25m turning circle

50 kN/m2 floor loading

EV charging points

Committed to shaping a greener future

The scheme will minimise energy usage and generate a proportion of its reduced demand through on-site renewable sources. Designed with sustainability at its core, the building incorporates smart LED lighting, EV charging, and solar PVs to support lower operational costs and long-term efficiency.
